## OBJECTIVE

I am a certified Python JavaScript developer with 7 years of coding experience and 4 years of commercial software development experience. Using Python Golang and JavaScript I have worked on successful projects in the science, health, transportation and finance sectors in Russia, Hong Kong and Zimbabwe. I am based in Saint Petersburg Russia. I am fluent in English language and decent in Russian language.

I have a good grasp of web applications architecture, version control, containerization, API documentation, message queues, caching, reverse proxies, server configuration, server security, web sockets, stress testing, unit testing, SQL, No SQL, systems integrations and technical projects documentation.

# PROGRAMMER MIKE ZINYONI (23 Y.O)

## EXPERIENCE (PYTHON, TYPESCRIPT, GOLANG)

### 01-2024 - Now

Python Programmer • Profidevs Saint Petersburg

Using Python, Fast API, MongoDB, Selenium and Docker I work on writing Microservices in a Transportation SASS. Data mining and storage. I also work on Telegram Bots.

### 08-2023 – 08-2023

Python SQL JavaScript Programmer • Go Prime Harare

Using, Python, Flask, SQL, Redis and ReactJS I worked on maintaining a multi module ERP processing millions of US dollars for one of the largest steel manufacturers in Africa.

### 08-2020 – 03-2023

Software Developer • Index E Solutions

Using Docker, Python Django, Golang, Redis, Angular and Ionic we developed a medical services and insurance platform used by some of Zimbabwe's leading health insurers and medical institutions. My role was transforming a given ERD and Figma design into a fully functional software system with insurance users, agents, hospitals, insurance members and patients.

## EDUCATION

### Saint Petersburg State University, St Petersburg Russia

- BSc Data Science (Incomplete)

### ITMO University, St Petersburg Russia (2023)

- Mathematics, Computer Science in Russian Language

### Harvard X

- CS50 Introduction to Computer Science 2020
- CS50 Web Programming with Python & JavaScript

## SKILLS

I write software using Python, Golang and JavaScript. I know Docker, Git, SQL, Nginx, HTML, Markdown and TypeScript.

## INTERESTS

Coding, football, learning Russian language.
